

# Kisses and Hugs

words and music by Jon Conley & Scott Willis

INTRO: G G/Am G D

## VS 1

          G                          D  
You're growin' up right before my eyes

      C                  D  
I can't believe it how time flies

      G                          Bm  
You write your name, say your ABC's

      C                          D  
And dress yourself whenever you please

      C                          G  
You even call me on the phone

      C                          G  
To ask me when I'm coming home

      Am                          C  
And on those nights I get in late

          D                          D7  
There's still a chance I'll hear you say

## CHORUS

G                          D          G  
Daddy, come give me kisses and hugs

G      Em      Am7      D  
Tell me I'm the one you love

          C      G      Am          G  
When you tuck me in real warm and snug

Am                          D2          G  G/Am  G  D2  
Daddy, don't forget my\_\_kisses and hugs

VS 2

G                      D2  
It's so precious when you pray  
          C                      D  
You always have so much to say  
          G                      Bm  
And when you finally reach the end  
          C                      D  
You squeeze my hand and say, 'Amen'  
C2                      G  
Then you yawn and say goodnight  
          C2                      G  
I crack the door to leave some light  
          Am                      C  
And as I tiptoe down the hall  
          D                      D7  
I think I hear an angel call

CHORUS
